SUMMARY

A motivated software engineering student and web development enthusiast, committed to utilizing my technical skills and problem-solving capabilities to deliver innovative solutions that can meet the evolving needs of businesses and individual clients alike. I am eager to secure an internship or entry-level position in a dynamic and challenging environment where I can contribute to the organization's success, and that also allows me to enhance my knowledge and skillset.

EDUCATION

University of Calgary
Expected in 04/2026
Bachelor of Science: Software Engineering

Harvard University
Expected in 08/2023
CS50x: Introduction To Computer Science

Udemy
08/2022
The Web Developer Bootcamp

EXPERIENCE

Personal Project - Web Application Development
Calgary, AB • 08/2022 - 08/2022

- Project created as part of the Web Development Bootcamp, involving full-stack website development.
- Application was a Yelp-like platform for campgrounds to be reviewed.
- Accommodated for all access levels including users, guest users, and visitors, with each given their own respective privileges.
- Utilized web development languages and technologies including, but not limited to, HTML5, CSS3, JavaScript, Bootstrap, Node.js, Express.js, MongoDB, Heroku, and PassportJS.
- Developed adaptability and proficiency in learning new concepts quickly and efficiently.
- Learned to extend code developed by others.

HOBBIES AND INTERESTS

Reading - I believe reading is the true gateway to knowledge. Some of my favorite books include the Psychology of Money and the 48 Laws of Power

Working Out - Running, Weights, Calisthenics

Learning Programming - I enjoy finding new ways to better my craft in both front end and back end programming
